

PASTOR'S COLUMN—FEBRUARY 10, 2014

Dear Parishioners:

We may have had the radio on in recent days listening to music and, perhaps, we found ourselves singing along with a song. What is interesting is that as we sing along, we may not be in sync with the words to the song. We may be adding our own words to the song because we didn't understand the lyrics in the first place.

God's "hymn" of Salvation has many different lyrical variations from one Church song to the next. However, the consistent theme in every salvation song is that Christ Jesus is our constant "tune". We can make up our own Jesus "tunes" as long as we remember to keep "humming" Christ's mercy and risen life as the major "refrain" of our every Jesus song.

We do not need to know God's "hymns" word-for-word as long as we remember God's music is saving music in Christ.

Let us sing away on the radio and at the Church for music/song is a healing elixir on many levels including the level of salvation in Christ.

Loving you in Christ,

Fr. Terry
