

PASTOR'S COLUMN—APRIL 4, 2016

Dear Parishioners:

It can happen that on some days we may think that this is just another day. Kind of “Ho-Hum” because nothing exciting is going on. Thus, we may end up simply “going thru the motions” of another day in a lifeless progression. Sometimes we may declare that life is boring today because it is just more of the same.

Lord Have Mercy on us, if we approach life as lifeless because the risen life of Christ is in our every moment for we are temples of the risen Holy Spirit of Christ. Let's see, do we believe this risen life faith mystery? Because if we do, then we need to give up boredom with life and start living life to the risen fullest in every moment. We will need to start living in each moment with freshness, not bringing up the past and not worrying about the future.

Every day on this earth is a blessed gift from God because every day is another opportunity to praise and thank God for Christ's risen life already within us. We are eternal life people now, so let's get celebrating every day because no day is just another day, but rather, every day is a risen life day in Christ. Alleluia!

With Risen Joy in Christ,

Fr. Terry
