

PASTOR'S COLUMN—APRIL 8, 2013

Dear Parishioners:

Risen life in Christ is healing life for to rise from the dead is the healing of all healings! Through Baptism, we share together in the risen Christ as members of His One Body. Thus, we carry within us the healing of all healings: risen life! No longer does death have control over us; we are freed up as God's children to celebrate how God's Love endures forever.

Walking around in daily life with the risen life of Christ within us is the greatest gift of our faith. No greater healing is there than to bask in eternal life already in us!

Jesus' risen love is always with us in the Holy Spirit. This is the most profound of all healing experiences because it impacts our whole heart, mind, soul and strength. And the Good News of this risen healing is that we can share its' healing power with our neighbors.

Happy Easter!

Fr. Terry
