

PASTOR'S COLUMN—APRIL 29, 2013

Dear Parishioners:

As I write this, the weather is on the cusp of warming up substantially. Some people declare that they cannot be happy until it warms up. This is a sad attitude because it makes our happiness dependent on a thermometer reading.

The saving message of the risen Christ is that we can be happy no matter what the temperature. God's Love is not dependent on the warmth or lack of warmth of the air we breathe. The breath of the Holy Spirit is constantly with us reassuring us that we can "weather" thru a cold Spring Season with blissful happiness in the risen Christ. Now this is faith! To savor the every moment of life because "all is well" in God's eternally faithful love freely given to us in Christ. The freedom of the children of God which we share in thru baptism is a constant no matter what the outside temperature.

Happy Easter!

Fr. Terry
