

PASTOR'S COLUMN—MAY 27, 2013

Dear Parishioners:

Consistency in life is helpful in the day-to-day tasks that need to get done such as eating, cleaning, traveling to work, and sleeping. Oh let's see, did we include consistent prayer time? These are precious moments for us to savor God's consistent presence with us and how one of our prayers ought to include asking God to help us more consistently remember God's presence in our every moment.

To pray always is to be aware of God at all times. We will find ourselves relaxing more about life, freed up from the frenzy of "Oh God, what's next?" Instead we can say "Oh, God, I am aware of you no matter what life brings." Now that is faith! To be faith-filled followers of Christ is to live each day consistently following thru on things that need to get done such as eating, cleaning, travelling to work and sleeping. But praying enough each day and night to be aware of God's consistent presence can make every consistent moment of life a joy in Christ's eternally consistent love.

Loving you in Christ,

Fr. Terry
