

PASTOR'S COLUMN—SEPTEMBER 7, 2015

Dear Parishioners:

It is a blessed gift that God has become one with us through His Son Jesus. And we are wise to remember that Jesus is a human who lives on the earth until His death, resurrection and ascension. However, it is most important to acknowledge that although Jesus is human, He is also the Son of God. In other words, Jesus is God too. Jesus reveals that God and humans are one in Christ the Savior, the anointed one of the Creator Father to bring saving love to the world.

In daily life it is most consoling and comforting to faithfully trust that Jesus is one with us at all times as God and Man. That way no matter what may unfold in our earthly journey, all is well in Christ's Saving presence. Pick our biggest challenges be they work-related, family-based, health-connected, financial confusion, parental frustration, the presence of our all-loving God is one with us deep within us at all times thanks to the beloved Jesus.

Remembering that we don't go through a single second of life without God's constant oneness in Christ is our peace and freedom as God's children. Life does not have to overwhelm us no matter what happens in our daily life. Celebrating the presence of God always in us through Jesus is our salvation already on this blessed earth. Let us rejoice and give thanks to Jesus who is both God and Man.

In God's Constant Oneness,

Fr. Terry
