

PASTOR'S COLUMN—OCTOBER 29, 2012

Dear Parishioners:

Perhaps we think that God fluctuates in how much God fills us with His presence. That somehow God's Love is based on how God feels about us is forgetting that's God is in an eternal covenant with us. Jesus comes to commune in our humanity to clarify that God is for us in our every moment. Although God gives us feelings, God's Love does not come and go as feelings do. God's Love is constantly within us no matter how we feel about God.

Being in God's presence rather than feeling God's presence is so freeing when it comes to savoring God's faithful Love. What a relief to realize that God's Love does not fluctuate! Thank you God for your faithfulness! May we be more faithful to God rather than try to feel more faithful to God.

Loving you in Christ,

Fr. Terry
